

# HOS247 Integration Guide

Connect your devices for automated tracking on brokers' loads.

To integrate with Trucker Tools, you'll need to share a company ID. Please follow the steps below.

*Please note: you must be the account administrator for your ELD account to proceed.*

## 1 Login to your HOS247 account

You must be the account administrator. Please login under your administrator credentials. Please note that integration is only available when the GPS Tracking feature is included in your plan.

[Click here to login](#)

## 2 Obtain Company ID

- In the main menu, click "Manage".
  - Select "Company"
  - Copy the full value for "Company ID" under the "General Information" section
- Be sure to include "Company:", for example "Company:xxxxxx").

## 3 Complete integration

You can send the Company ID to [eldsetup@truckertools.com](mailto:eldsetup@truckertools.com) with your MC number to have the team complete your integration.

Or, you can submit the Company ID on Trucker Tools integration page and follow the steps below to integrate automatically.

- Enter your details in the form with HOS247 selected as your provider.
- Once submitted, paste the company ID in the corresponding field and click "Submit".
- You'll receive a confirmation pop-up that the integration has been successfully integrated. *If you receive an error, please ensure you pasted the company ID formatted as Company:xxxxxx*
